

Sydney Academy
Teacher Communication Plan

Teacher: Sandy Urquhart

Course: Math for the Workplace 12

Course Overview:

This academic course is a grade 12 credit math course designed to provide students the opportunity to focus on Math skills related to the trades. The topics include Measurement, Rate, Ratio and Proportion, Formula Use, and Geometry.

Students absent from class, for any reason, are **still held responsible** for the work missed during that time. Poor attendance will not lead to success in this course.

Course Evaluation:

Tests and Assignments	50%
Mid Semester Comprehensive Test	20%
Final Project	30%

Student Assessment:

The mid-semester report card will be sent home in April. It is based on all tests and assignments to that date.

The parent teacher sessions for this semester will be Apr.22, 23.

Parents or guardians wishing further information regarding their child's progress may contact me personally through the school at 562-5464 or at surquhart@staff.ednet.ns.ca

Thank you.
