

Sydney Academy  
Teacher Communication Plan  
Exploring Technology 10 (2011-2012)

**Teacher:** Dan McGee

**Course Overview:**

Exploring Technology 10 is a course designed for all students of grade 10. The modules covered in this course include:

- Module 1: Introduction to Technology
- Module 2: Green Technology
- Module 3: Media Technology
- Module 4: Control Technology
- Module 5: Engineering
- Module 6: Exploring Trades and Technology

**Course Evaluation:**

Projects/Presentations/In-class Assignments/Participation	70%
Final Project (January)	30%

**Student Assessment:**

Course content, knowledge, and skills will be assessed on a daily basis, with plenty of notice for upcoming assignments and tests. Assessment will include marks for participation, tests, oral presentations, group work, projects, class work, as well as homework.

Arrangements should be made prior to an assignment due date so that you are not penalized. Points will be deducted each day a project or assignment is late. If you are not present the day a test is written, then the next day you are back at school, you must write the test, **provided the absence was excused.**
