

Sydney Academy
Teacher Communication Plan
2011 – 2012

Teacher: Mr. Nicholson

Course: Multimedia 12

Course Overview

Multimedia 12 is a course set up to allow students to gain skills and understanding dealing with several different types of mediums. As the course name suggests topics covered will include different types of digital media. This course is set up into three different units; digital photography, web page design, and flash animation. By the end of the course the students should be able to integrate all of these media types into projects as required. This course is based on the problem solving method, and students are encouraged to work with the technology as a way to creatively solve problems using a variety of technologies. This is a project-based course where finished projects make up the majority of the mark. In order to be successful at this course you **MUST** attend and complete your work in class.

Student Learning Assessment Methods:

- Informal evaluation / observations
- Projects
- Technology use
- * Independent Study (approved by instructor)

Evaluation Procedures

- Projects Assignments = 70%
- Daily Work = 20 %
